## CAG KEBAB

Some refer to it as Shawarma... others as Gyros... still, some call it Doner Kebab... But we embrace it as Cag Kebab, crafted from 100% tender lamb cuts, primarily sourced from the belly and shoulder. Stacked like a doner kebab, it is lovingly smoked horizontally over an open fire, infusing each bite with a rich and profound flavor. This time-honored method of preparation traces its roots back to the 18th-century Ottoman Kitchen, the very forge that shaped what we now celebrate as modern-day Shawarma and Gyros.
